Relaunching Tassomai for Years 7-11

Dear Parent/Carer,

We want to remind you about our digital independent learning platform: *Tassomai*, which is being relaunched across the Academy.

What is it?

Tassomai is an intelligent online learning programme that will help students at any level achieve outstanding results and progress in English, Maths and Science. Using *Tassomai* builds knowledge, boosts confidence and reduces exam and test stress.

The aim of this platform is to support individual students to progress at their own pace - anytime and anywhere. Students' levels are gauged very quickly and the software itself quickly builds challenge into each question as it learns to understand each student's individual need and ability.

Students will be set a daily goal, which asks students to answer a certain number of questions correctly each day - it is still individualised for each student. Students should aim to complete four or five daily goals each week. The top 10 students in every year group will be celebrated each week and will be entered into a raffle to win a voucher at the end of every half term!

All students will be reminded of *Tassomai* in assemblies, the first week back after half term. But how great would it be if we could celebrate students *already* getting involved in that first week back? *Tassomai* is ready and waiting to be used, so the sooner the better!

My child isn't signed up yet. How do they get involved?

New students need to:

- Visit app.tassomai.com/signup
- Enter our school's unique code: **Z6BGK5A9**
- Enter your school email address
- Choose the correct class from the dropdown menu for English, Maths and Science [Please note that students will need to sign up on a browser. Once they have signed up they can download the free app on their smartphone/tablet to log in.]

My child is already signed up. What now?

If your child is signed up to *Tassomai* already, they will be able to login using the exact same details as before. If they have forgotten their password, they must click

"Forgot your password?" button on the login page, and they'll receive an email with a link to reset their password.

Can I keep track of my child's progress?

Yes. *Tassomai* will send you 'parent reports'. These are weekly, personalised emails sent directly to parents and carers, detailing how much work their child has done on *Tassomai* that week and where their strengths and weaknesses are. You will also get set up with their own 'overseer' account, where you will receive in-depth analysis of your child's *Tassomai* usage, helping you to support them with their learning.

How do I find out more information?

Tassomai are offering a free webinar to parents and carers, providing greater insight into how the platform benefits students and how parents and carers can get the most of its features at home. If you would like to sign up for the webinar, [click here](#) and follow the instructions. Please see the illustration below for further information.

If you have any questions, please contact me on:
gflack@ormistonriversacademy.co.uk.

Kind regards.

Yours faithfully,

G. Flack

Georgia Flack
Assistant Principal

How does TASSOMAI work?

1. Investigating
We start by analysing a subject, down to the finest level of detail...

2. Creating
... turning everything a learner needs to know into quiz questions that teach as well as test.

3. Discovering
Every question answered helps us build up a detailed knowledge profile.

4. Personalising
Our intelligent algorithm continually adapts the content for each learner.

5. Supporting
Sometimes we'll suggest a short tutorial video, designed to supplement learning in a particular topic.

6. Evolving
Tassomai discovers more about what you understand (and what you don't) with every interaction.

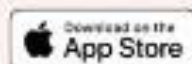

7. Reinforcing
Quizzes are shown at the optimum time and repeated occasionally to check that knowledge has been retained.

8. Celebrating!
Your knowledge, understanding and confidence builds until you master the subject, helping you achieve your best possible results.
