

Deepening Learning and Raising Aspirations through the AIRR values.

What does this look like in our Art, Design and Technology curriculum?

### Aspire:

To develop knowledge of careers and foster independent exploration of possibilities. Inspire students through creative and challenging projects.

### Be Independent:

Independent and individual projects throughout. Ingrained use of technical and subject specific vocabulary (code of language).

### Be Resilient Learners:

Development of psychomotor skills through iteration in tailored practical challenges. Familiarise with the practice of experimentation to develop skills in learning from mistakes.

### Be Respectful:

ADT develops understanding of the cultural, environmental, historical, artistic and technical development of the world around us.
