

3rd February 2025

Dear Parents and Carers,

We are pleased to announce that the Year 10, 11, 12 and 13 academic reports are now available to view within Go4Schools.

Go4Schools is an online platform providing parents and carers with live attainment, timetable, targets, and attendance updates for the academic year. The app doesn't currently allow you to access the reports which means you will have to access them via web login www.go4schools.com. If you are unsure how to access the reports in Go4school please see our guidance - [Go4schools - Login support](#)

Reports will include comments on our Care Values:

Community:

Demonstrates service to the school and wider community, is a model of good citizenship.

Ambition:

Aims for the very highest levels in this Subject, driving themselves to achieve more.

Resilience:

Copes exceptionally well with setbacks in learning and overcomes obstacles with a determined focus.

Respect:

Has the utmost respect for themselves, others, and the environment during all aspects of learning.

Excellence:

Strives for excellence within all elements of this subject, leading to good outcomes.

In addition to the CARE values above every student will receive a subject comment identifying strengths and, if necessary, what they need to do to improve.

UNDERSTANDING ASSESSMENT

The web login for Go4schools also has greater insights into students' progress and attainment. On the menu of icons on the left-hand side there is one called 'Progress' (hover cursor over icons and names of links appear). From there you can view exactly which assessments have been done, students' performance, and how those assessments contribute

towards the overall grade for each subject. This provides insight into which area the students excel at, and where they need to focus greater attention.

The chart below shows how the grading systems across KS3, KS4 and KS5 line up.
